#42488 - VERTICAL WALL MOUNT BIKE BRACKETS TECHNICAL SPECIFICATIONS

#42488 Measurements:

- Height: 9-3/4"
- Width: 3" (7.6 cm)
- Depth: 5" (12.7 cm)
- Bracket protrudes 5"
- All Welded
- Use touch-up paint specifically formulated for powder coat finishes as necessary.
- Standard finish powder coat black
- Space bikes as close as 12" apart

Installation:

- Bike is hung on non-slip hook by slipping a wheel over the bracket.
- Two Welded bike guide rails on each side of bracket to keep the bike wheel straight and stabilize the wheel and prevent bikes from falling.
- Install a 2" thick by 10" high plywood beam to provide stable installation on [sheetrock walls](#)
